If your affidavit is created in a word processing application, you will be able to directly convert it to the Adobe Acrobat pdf format required but you will need to obtain the Adobe Acrobat Writer software to do so (while the Adobe Reader software that is needed to look at documents in pdf format is free, the writer software that is necessary to create documents in pdf format is not free and must be purchased at [www.adobe.com](http://www.adobe.com)). If you attach a copy of the summons and complaint or other documents served to your affidavit or certificate, you will need a scanner to scan these documents into the pdf format. Those attachments may be filed as part of the Affidavit of Service entry by placing a dot in the Attachment to Document Yes after loading your affidavit.
